THESIS SCREENING

Batch 2015

School of Integrated Social Sciences

WHO ARE WE?

Welcome to the School of Integrated Social Sciences (SISS) at the University of Lahore, a newly established unique space which aims to develop amongst students a sophisticated and comprehensive understanding of contemporary social science disciplines. The School houses the Center for Security, Strategy and Policy Research, an Incredible research platform which will provide students excellent opportunities for practical social sciences research in Pakistan linking them up with local, regional and international think tanks.

MISSION

Our mission is to provide quality education and professional academic and research environment enabling students to explore themselves and discover their passion to serve their country and be the flag bearer of social change at home and abroad. Through our rigorous academic program, research center, faculty mentoring and career development seminars we aim to strive to make our program the best social science undergraduate degree program in the country. This degree is designed for enable our graduates to join the civil superior services (CSS) of Pakistan, federal and provincial government, NGOs and INGOs, the UN, local and foreign media outlets, think tanks and academia.

WHAT ARE WE OFFERING?

We are offering BS Honors in Social Science (BSSS) program with a unique combination of three specializations:

- Politics and International Relations
- International Development Studies
- Governance and Public Policy

In the first four semesters students will study compulsory and general courses with foundation courses introducing each specialization. In the last four semesters, students will choose a specialization and study major and elective courses specific to their specialization in which they plan on graduating.

WHY JOIN SISS?

BS Social Science is a uniquely designed degree program which gives you unparalleled education in experiencing a truly globalized world. We are:

- To provide comprehensive understanding about broader national, political, social, economic, security, foreign policy, governance and sustainable development issues that we are facing as a global community.
- To enhance the ability of students to conceptualize problems and apply analytical tools to solve them.
- Enhance understanding about the convergence and conflict of interests that shapes international relations and structuring of global politics, challenge to sustainability of development in the 21st century and issues in governance and public policy.
